## Practical convenience

The entire range offers ergonomic handling, thanks to sophisticated technology:

- due to the high quality 2 -component plastic handle with pump lever behind the rail for safe access from both directions
- due to the release handle integrated in the grip for quick adjustment of the sliding bar and for releasing the clamp

## Multiple applications

The one-handed EZ range offers numerous possible applications:
$\square$ due to a diverse range in four sizes with clamping widths from 110 to 900 mm and clamping forces from 200 N to $2,700 \mathrm{~N}$

- due to the cross prism integrated in the plastic protective caps for the secure fastening of round, pointed and angular pieces
- due to conversion of the top section from clamping to spreading with sizes EZM, EZL and EZXL tool-free thanks to release mechanism at the touch of a button

Modern aesthetics meet with longevity here:

- due to the use of high-quality materials, such as fibreglass-reinforced polyamide for the top and bottom, as well as hardened, tempered, and burnished steel for the profiled rails
- due to the plastic housing, the grip mechanism is protected from dust and chips

$750 \mathrm{~N} / 75 \mathrm{~kg}$ (EZM)
$1,400 \mathrm{~N} / 140 \mathrm{~kg}$ (EZL)
$2,700 \mathrm{~N} / 270 \mathrm{~kg}$ (EZXL)
■ Conversion for spreading - tool-free with EZM, EZL, EZXL thanks to simple release mechanism at the touch of a button on the top section
■ Ergonomically shaped 2-component plastic handle with pump mechanism and integrated release lever behind the rail
- Protective caps with cross prism on the top for securely holding round, pointed and angular parts
■ One-handed operation with little effort required
■ On carded hang pack
