Part Number : DM160217 - MGC3130 - Sabrewing Single Zone Evaluation Kit

This tool provides a complete solution for exploring the low-cost, high-performance MGC3130 3D Tracking and Gesture Controller. This board is USB-powered, it contains a 7-inch sensing electrode, and it comes with the GestIC® Technology Colibri Suite, which is a set of gestures running on the chip. In addition, Microchip's feature-rich Aerea Graphical User Interface (GUI) running on the Windows 7 Operating System provides control of the MGC3130's settings, making it easy to update and save parameters.
