

SIMPLEX soft-face mallets • Rubber composition; with cast iron housing and high-quality extra short wooden handle

3002.082

Product Description

This SIMPLEX soft-face mallet comes with an extra short handle. The compact design keeps the end of the handle from hitting the ground - for instance during paving work.

The SIMPLEX series 3002 is equipped with the rubber composition insert on either side.

This medium hard rubber insert (series 3202) is an absolute top seller. Ultra low-wear, impact cushioning and odourless, it offers a much longer service life than a conventional rubber hammer. Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance.

Damping vibrations and shaped ergonomically, the high-quality and extra short wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted.

This translates to savings in both money and resources.

Product features:

- SIMPLEX soft-face mallet D80mm with rubber composition inserts (black, medium hard, impact cushioning, odourless, low-wear) on both sides.
- Extra short handle, end of handle not hitting the ground.
- Cast iron housing with integrated handle protection sleeve and excellent break resistance.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
