

MINI® Blade Fuses

Rated 32V

MINI® Shunt

Description

MINI® 32V automotive blade fuses boast a miniature design that allows automakers to pack more circuit protection into less space. Despite their light weight, MINI® fuses perform reliably in adverse environments and at extreme temperatures.

Specifications

Voltage Rating:	32 VDC
Interrupting Rating:	1000A @ 32 VDC
*Recommended Environmental Temperature:	-40°C to +125°C
Terminals Material:	Silver plated / Tin plated zinc alloy
Housing Material:	PA66 (U.L. 94 Flammability rating – V2)
Net Weight Per Fuse:	0.57±5% gr
Complies with:	Ag plated: SAE J2077, ISO 8820-3, UL 248 Special Purpose Fuses Sn plated: SAE J2077, ISO 8820-3 not UL recognized

*Tin plating's temperature limit is ≈130°C. Silver plating allows up to 150°C at the terminal interface.

Applications

- Cars
- Trucks
- SUVs
- Offroad vehicles
- Buses
- Watercraft

Features & Benefits

- Color coding shows the amperage rating for each fuse
- See-through housing makes it easy to check whether a fuse has blown
- Checkpoints on top make it possible to measure resistance without removing the fuse
- High-contrast amperage stamp on the top of the housing aids identification
- Simple to install and remove

The typical I²t is an average value calculated from the breaking capacity tests by using the melting time before the arcing occurs.
