

Ultrathin Heat Sink for Cubieboard

Description

This is a simple heatsink for Cubieboard and other similar chips. It has high quality thermal conductive adhesive tape instead of heat conductive silicone, and more simple usage than 2 in 1 heatsink.

You can remove it from cubieboard with less effort. Its service life can be as long as two years.

Features

- Ultrathin
- All in one, Don't need heat conductive silicone.

Specifications

- Size: 20.25 x 20 x 2.5 mm
