# **ON Semiconductor**®

# To learn more about ON Semiconductor, please visit our website at <u>www.onsemi.com</u>

Please note: As part of the Fairchild Semiconductor integration, some of the Fairchild orderable part numbers will need to change in order to meet ON Semiconductor's system requirements. Since the ON Semiconductor product management systems do not have the ability to manage part nomenclature that utilizes an underscore (\_), the underscore (\_) in the Fairchild part numbers will be changed to a dash (-). This document may contain device numbers with an underscore (\_). Please check the ON Semiconductor website to verify the updated device numbers. The most current and up-to-date ordering information can be found at <a href="mailto:www.onsemi.com">www.onsemi.com</a>. Please email any questions regarding the system integration to <a href="mailto:Fairchild\_questions@onsemi.com">Fairchild\_questions@onsemi.com</a>.

## FCU4300N80Z N-Channel SuperFET<sup>®</sup> II MOSFET

### **800 V, 1.6 A, 4.3** Ω

#### Features

- R<sub>DS(on)</sub> = 3.4 Ω (Typ.)
- Ultra Low Gate Charge (Typ. Q<sub>g</sub> = 6.8 nC)
- Low E<sub>oss</sub> (Typ. 0.8 uJ @ 400V)
- Low Effective Output Capacitance (Typ. C<sub>oss(eff.)</sub> = 36 pF)
- 100% Avalanche Tested
- RoHS Compliant
- · ESD Improved Capability

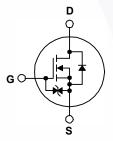

#### Applications

- AC DC Power Supply
- LED Lighting

## Description

SuperFET<sup>®</sup> II MOSFET is Fairchild Semiconductor's brand-new high voltage super-junction (SJ) MOSFET family that is utilizing charge balance technology for outstanding low on-resistance and lower gate charge performance. This technology is tailored to minimize conduction loss, provide superior switching performance, dv/dt rate and higher avalanche energy. In addition, internal gate-source ESD diode allows to withstand over 2kV HBM surge stress. Consequently, SuperFET II MOSFET is very suitable for the switching power applications such as Audio, Laptop adapter, Lighting, ATX power and industrial power applications.

#### Absolute Maximum Ratings T<sub>C</sub> = 25°C unless otherwise noted.
