Specifications	
Essentials	
Status	Launched
Launch Date	Q1'12
Expected Discontinuance	2H '15
Description	Intel® Integrated RAID Module RMT3PB080, PCIe Slot, LSI2208 ROC, 8P Internal SATA (only), MegaRAID SWStack, 512MB DDR3, Restricted to use only SATA drives, R0,1,10,5,50,6,60
Target Market	Mainstream
Board Form Factor	Low Profile MD2 Card
Data Transfer Rate	6 Gb/s
Supported Devices	SAS/SATA
Supported Operating Systems	Windows, Linux, VMWare (see THOL)
Compatible Cache Backup Options	AXXRSBBU9 or AXXRMFBU2
RAID Level Supported	0, 1, 10, 5, 50, 6, 60
JBOD Mode	No
# of Ports Internal	8
# of Ports External	0
# of Devices Supported	16
Embedded Memory	512MB
PCIe Host Interface	PCIe x8 Gen2
IO Processor Model	LSI2208
Keying	PCIe x8
Extended Warranty Available for Purchase (Select Countries)	No
Included Items	(1) RAID Controller module, Quick Start User Guide, Mounting standoffs. Note: Cables sold separately
Datasheet	Link
Recommended Customer Price	N/A

PCN/MDDS Information

924870: PCN | MDDS

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

"Intel classifications" consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company may be the exporter of record, and as such, your company is responsible for determining the correct classification of any item at the time of export.

Refer to Datasheet for formal definitions of product properties and features.

*Announced" SKUs are not yet available. Please refer to the Launch Date for market availability.

"Conflict free" and "conflict-free" means "DRC conflict free", which is defined by the U.S. Securities and Exchange Commission rules to mean products that do not contain conflict minerals (tin, tantalum, tungsten and/or gold) that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo (DRC) or adjoining countries. Intel also uses the term "conflict-free" in a broader sense to refer to suppliers, supply chains, smelters and refiners whose sources of conflict minerals do not finance conflict in the DRC or adjoining countries. Intel processors manufactured before January 1, 2013 are not confirmed conflict free. The conflict free designation refers only to product manufactured after that date. For Intel Boxed Processors, the conflict free designation refers to the processor only, not to any additional included accessories, such as heatsinks/coolers.

The Recommended Customer Price ("RCP") is pricing guidance for Intel products. Prices are for direct Intel customers, typically represent 1,000-unit purchase quantities, and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. If sold in bulk, price represents individual unit. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.
