

Thicker wire gauge, stronger power supply

Adopt 20AWG wire gauge which is thicker than traditional 28AWG, more power can be passed under the same condition, support 1A-3A current power supply, have strong and stable power supply ability.

20 AWG
Compared with the
traditional 28AWG thick
wire gauge

3 A
Support 1A-3A current
power supply

Pure copper core, faster charging

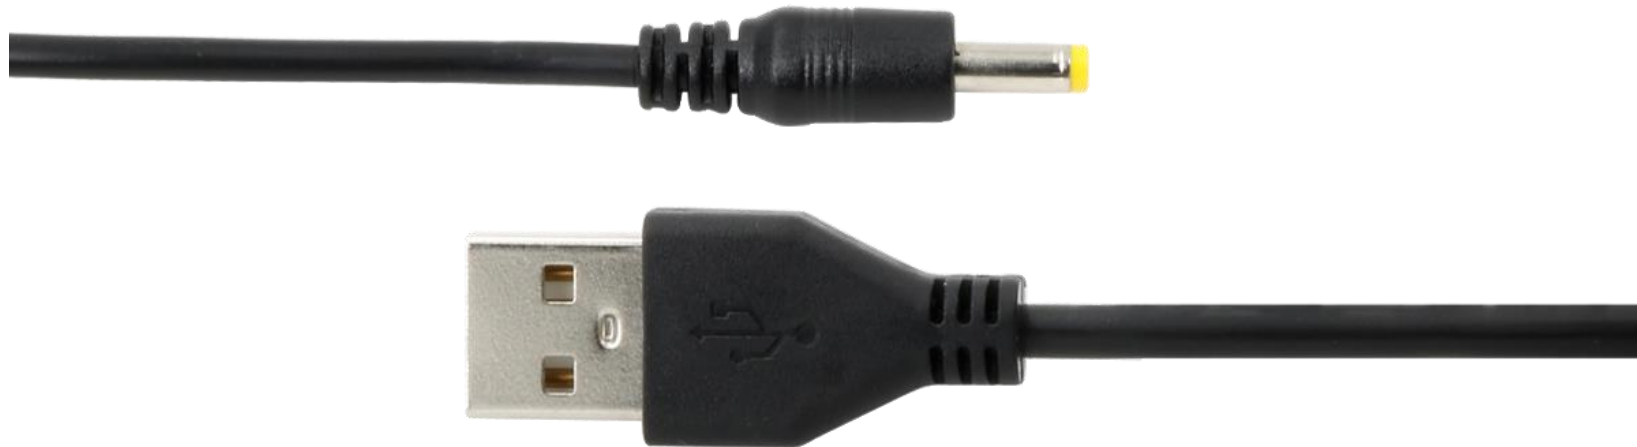

Various metals have different conductivity, we use copper as the conductor to ensure fast charging performance.

Pure copper core

Rapid power supply

Specifications

Wire core	pure copper
Line diameter	3.5mm
Line length	1m
Packing	PVC bag
Outside	environmental protection PVC

Dimensional drawing

- **Outside diameter : 4.0MM**
- **Inside diameter : 1.7MM**
