

# DATA SHEET

# CARBON FILM RESISTORS

General Purpose CFR Series 111

T

ADITATE DUIDRAH

±2%, ±5% 1/6W to 3W RoHS compliant & Halogen Free

Product specification – August 13, 2021 V.0

00

## YAGEO

Downloaded from Arrow.com.

#### **YAGEO** , Through Hole Resistors

**Carbon Film Resistors** 

#### **APPLICATIONS**

- All general purpose • applications
- Power applications •

#### **FEATURES**

- AEC-Q200 qualified •
- Wide resistance range •
- High stability .
- PPAP ready • (CFR-25/CFR50S)
- **RoHS compliant &** • halogen-free

## **ORDERING INFORMATION**

Part number of the general purpose carbon film resistor are identified by the series, power rating, tolerance, packing, temperature coefficient, forming and resistance value.

## PART NUMBER

| Robustness of<br>Terminations    | IEC 60115-1 4.16 | Direct load for 10 Sec. in the direction of the terminal leads                            | ≥2.5Kg(24.5N)                             |
| Periodic-pulse Overload          | IEC 60115-1 4.39 | 4 times RCWV(or Umax., whichever less)<br>10,000 cycles (1 Sec. on, 25 Sec.off)           | ±1.0%+0.05Ω                               |
| Damp Heat Steady State           | IEC 60115-1 4.24 | 40±2°C,90-95% RH for 56 days, loaded<br>with 0.1 times RCWV (or Umax.,<br>whichever less) | ±3.0%+0.05Ω                               |
| Endurance at 70°C                | IEC 60115-1 4.25 | 70±2°C at RCWV(or Umax., whichever less) for 1,000 Hr.(1.5 Hr.on,0.5 Hr. off)             | ±3.0%+0.05Ω                               |
| Temperature Cycling              | IEC 60115-1 4.19 | -55°C → Room Temp. → +155°C<br>→ Room Temp.(5 cycles)                                     | ±1.0%+0.05Ω                               |
| Resistance to Soldering<br>Heat  | IEC 60115-1 4.18 | $260\pm3^{\circ}$ C for $10\pm1$ Sec., immersed to a point $3\pm0.5$ mm from the body     | ±1.0%+0.05Ω                               |

## $\frac{5}{16}$

#### Note:.

#### RCWV (Rated Continuous Working Voltage ):

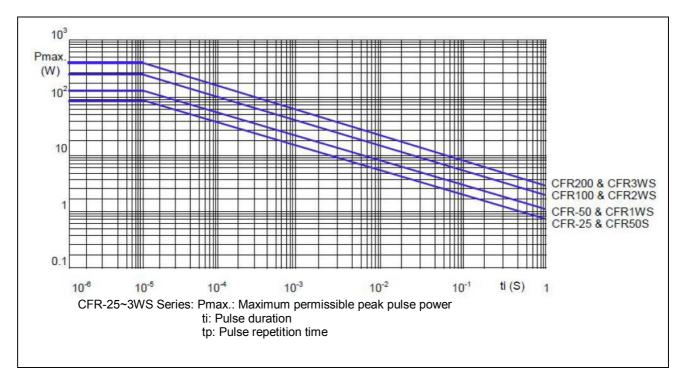

The DC or AC (rms) continuous working voltage corresponding to the rated power is determined by the following formula:

V=√(P X R) or max. working voltage whichever is less Where V=Continuous rated DC or AC (rms) working voltage (V)

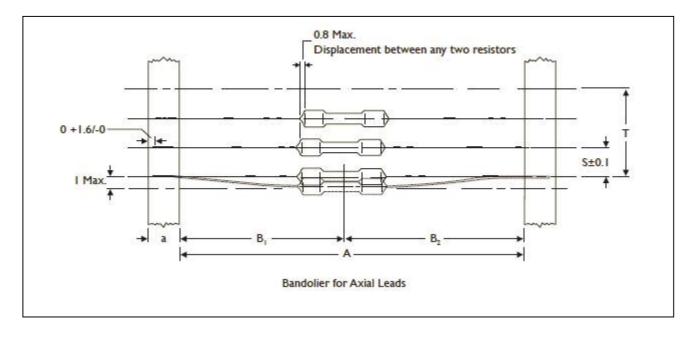

P=Rated power (W)

R=Resistance value  $(\Omega)$

#### LEGAL DISCLAIMER

YAGEO, its distributors and agents (collectively, "YAGEO"), hereby disclaims any and all liabilities for any errors, inaccuracies or incompleteness contained in any product related information, including but not limited to product specifications, datasheets, pictures and/or graphics. YAGEO may make changes, modifications and/or improvements to product related information at any time and without notice.

YAGEO makes no representation, warranty, and/or guarantee about the fitness of its products for any particular purpose or the continuing production of any of its products. To the maximum extent permitted by law, YAGEO disclaims (i) any and all liability arising out of the application or use of any YAGEO product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for a particular purpose, non -infringement and merchantability.

YAGEO products are designed for general purpose applications under normal operation and usage conditions. Please contact YAGEO for the applications listed below which require especially high reliability for the prevention of defects which might directly cause damage to the third party's life, body or property: Aerospace equipment (artificial satellite, rocket, etc.), Atomic energy-related equipment, Aviation equipment, Disaster prevention equipment, crime prevention equipment, Electric heating apparatus, burning equipment, Highly public information network equipment, data-processing equipment, Medical devices, Military equipment, Power generation control equipment, Safety equipment, Traffic signal equipment, Transportation equipment and Undersea equipment, or for any other application or use in which the failure of YAGEO products could result in personal injury or death, or serious property damage. Particularly **YAGEO Corporation and its affiliates do not recommend the use of commercial, automotive, and/or COTS grade products for high reliability applications or manned space flight.** 

Information provided here is intended to indicate product specifications only. YAGEO reserves all the rights for revising this content without further notification, as long as products are unchanged. Any product change will be announced by PCN.
