# Switching Power Supply <br> Type SPD 100W <br> DIN rail mounting 

## Product Description

This SPD is the most compact 100W power supply on the market. Relay output for "power ready" parallel function and PFC are
included. Performances are unique with high efficiencies and the possibility of being used up to $70^{\circ} \mathrm{C}$ with a little derating.

- Installation on DIN Rail 7.5 or 15 mm
- Short circuit protection
- PFC standard
- Power ready output on 24VDC
- LED indicator for DC power ON
- LED indicator for DC low
- Standard parallel function
- Very compact dimensions
- UL, cUL listed and TUV/CE approved
- Class I Div 2 Groups A, B, C, D approved

## Pin Assignement and Front Controls

| Pin No. | Designation | Description |
| :--- | :--- | :--- |
| $\mathbf{1}$ | RDY | A normal open relay contact for DC ON level control |
| $\mathbf{2}$ |  | Never connect |
| $\mathbf{3 , 4}$ | V+ | Positive output terminal |
| $\mathbf{5 , 6}$ | V- | Negative output terminal |
| $\mathbf{7}$ | $\boldsymbol{I}$ | Grounf this terminal to minimize high-frequency emissions |
| $\mathbf{8}$ | N | Input terminals (neutral conductor, no polarity at DC input) |
| $\mathbf{9}$ | L | Input terminals (phase conductor, no polarity at DC input) |
|  | DC ON | Operation indicator LED |
|  | DC LO | DC LOW voltage indicator LED |
|  | Vout ADJ | Trimmer-potentiometer for Vout adjustment |
