

5" TFT Color Display with Capacitive Touch Screen and frame

PID: MIKROE-4279

TFT Color Display with Touch Screen (5") and frame is a color active matrix thin film transistor(TFT) liquid crystal display (LCD).

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

Specifications

Type	TFT
Display size	5" 800x480px
Graphic controller	ILI6122&ILI5960
Touch Screen	Capacitive
Interface	I2C, Parallel 24-bit
Input Voltage	3.3V
