

# SCHRACK POWER PCB RELAY RZ SERIES

TE Connectivity (TE)'s SCHRACK Power PCB Relay RZ Series is suitable for a broad range of applications within the industrial, building automation and equipment and in appliance industries. This relay features a unique weld breaker mechanism to overcome micro welding and help improve life time. The RZ series includes single-pole relays with normally open or changeover contacts as well as standard versions for 85°C ambient temperature and high temperature models for 105°C (RZH Series). The 16A class is a global standard platform and the RZ relay is approved at UL, VDE and CQC.

## Applications

- Heating elements
- Pump controls
- Boiler Control
- Heating systems controllers
- Air conditioning systems
- Lighting
- Timer
- Door control
- Time switches
- Interface modules
- Machinery controls
- Energy controls and distribution

## Electrical

- Rated Voltage 250VAC
- Rated Current up to 16A
- Rated coil power 400mW
- Reinforced insulation 5kV / 10mm coil-contact

## Mechanical

- 1 pole 12/16A
- 1 form C (CO) or 1 form A (NO) contact
- Ambient temperature 85°C, HOT version 105°C

## Specifications

- [See Datasheet RZ Series \(Standard version\)](#)
- [See Datasheet RZH Series \(High temperature version\)](#)

## Materials

- Contact material AgNi or AgSnO<sub>2</sub>

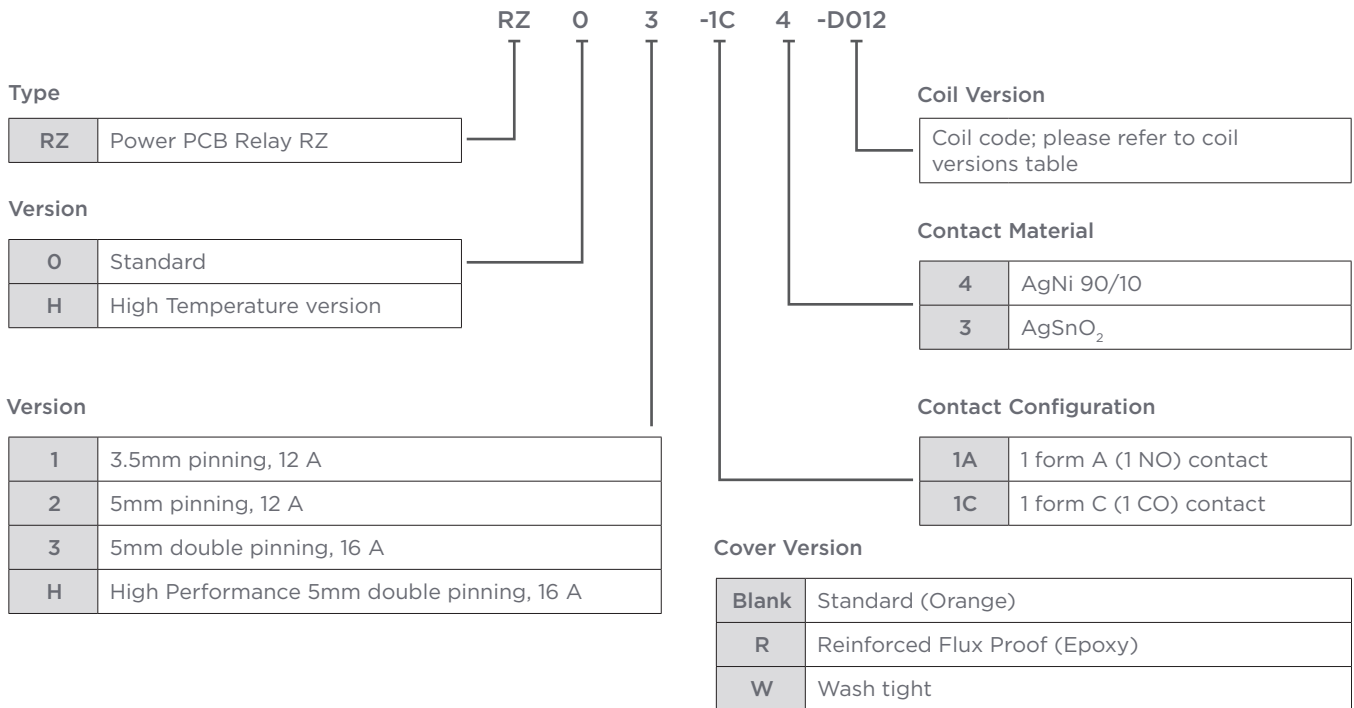

## Product Compliance / Approvals

- RoHS compliant, Cd free
- IEC 60335-1 compliant, new glow wire tests
- UL, VDE and CQC approved

## Key Benefits

- Global standard platform for 16 Amp applications
- Designed to overcome micro welding in the contact interface to improve life time
- Single-pole relays with normally open or changeover contacts
- Standard versions for 85°C ambient temperature and high temperature versions for 105°C
