

Power tools

A range of high quality power tools has an adjustable output speed from 5,000rpm to 30,000rpm by a continuously variable control knob at base of the unit. This permits the operator to match the speed to the requirement of the material being worked. Over 100pcs accessories for your wide choose include sanding disks, grinding stone, drills, steel cutter, polishing wheels and router bits etc. Following models are available.

1PK-500-1
