RS PRO Black Foam Tape, 9mm x 31m, 3.2mm Thick

RS Stock No.: 205-0956

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Seal out water, dust, wind and light with this black foam tape from the RS PRO range. The easy-to-use double-sided adhesive is an effective sealing solution across a range of surfaces.

An easy-peel poly liner stops the tape stretching while you're fixing it and allows for speedy and accurate installation. The medium density PVC foam tape is 9 mm thick and available on a roll of 31 m. As a high tack adhesive, it offers a secure hold without the need for curing. Offering excellent resistance to the elements, oxidation and ultraviolet light, this tape is self-adhesive on both sides and long-lasting.
