

Cordless Multi-tools

USP: A lightweight and easy to use cordless tool, with USB charging for using the tool anywhere, anytime.

Easy to use

A fully variable 8,000 – 25,000 speed and single button operation, for ease of use.

LED charge indication

A colour-coded LED display means you can keep track of exactly how much charge the tool has remaining.

Versatile

A removable EZ Twist nose cap means the tool is compatible with any Dremel attachment.

Ergonomic

A sleek design and soft grip makes using the tool comfortable during any application

Application

Compatible with all Dremel accessories for completing a wide range of applications.

Use everywhere

Comes equipped with a 3.6v Lithium-Ion battery, and can be recharged anywhere, anytime with a USB charger.

I want a convenient tool which can be used anywhere

I want to get started right out of the box
