ANSI Glassfibre Exposed Welded Tip Thermocouples

- Thermocouple type K
- Fast response, welded exposed junction
- 1, 2, 5 & 10-metre-long glassfibre insulated flat pair cable
- Good temperature resistance (not suitable in fluids)
- 1/0.3mm conductors
- Temperature range -60°C to +350°C (short periods up to 400°C)
- Tolerance to ANSI MC96.1 Class 2
- Colour code to ANSI MC96.1
- Ideal for test & development applications
