## Brown 43mm Hot Melt Glue Slug

RS Stock number [315-2750](#)

### Description:

Tecbond 260 is a high performance, general purpose adhesive with a long open time. Once set it forms a tough, but flexible bond. This very versatile adhesive works particularly well when bonding glass to light gauge metals and metals to ABS plastics.

Adhesive slugs suitable for use in the Industrial Glue Gun (stock no.315-2637). Supplied in bags of 2kg containing approximately 33 slugs.

All constituent parts of these adhesives have been approved by the American FDA under the following section CFR21, 175-105, 176-180

### Specifications:

Colour:	Brown
Diameter:	43 mm
Length:	43 mm
Material Compatibility:	Card, Expanded Polystyrene, Fabric, Paper
Maximum Application Temperature:	85 °C
Minimum Application Temperature:	- 10 °C
