TYPICAL CORE/WIRE CHARACTERISTICS					
Inductance Temperature	Resistance Temperature	Curie Temperature	Saturation Flux		
Coofficient	Coofficient	(T.)	(D)		

	Coefficient	Coefficient	(1 <sub>c</sub> )	(B <sub>SAT</sub> )
	350ppm	3900ppm	190°C	325mT

ADSOLUTE MAANWOW RATINGS	
Operating free air temperature range	-25°C to 70°C
Storage temperature range	-40°C to 125°C

SOLDERING INFORMATION <sup>2</sup>	
Peak wave solder temperature	300°C for 10 seconds
Pin finish	Hot dipped tin

www.murata.com

All specifications typical at  $\rm T_A{=}25^{\circ}\rm C$ 

- m DC current occurs when either the inductance falls to 90% of its nominal value or when its temperature rise reaches 30°C, er is sooner.

FEATURES
RoHS compliant
Radial format
Up to 1.62A loc
■ 10µH to 68mH
Low DC resistance
Miniature size
PCB mounting
MIL-I-23053/5 class I sleeving
Fully tinned leads
Supplied in bags of 100
Compatible with RoHS soldering systems
<ul> <li>Backward compatible with Sn/Pb soldering systems</li> </ul>
Custom parts available

#### DESCRIPTION

The 2200R Series is a general purpose range of inductors suitable for low to medium current applications. Their small footprint makes them ideal for high density applications where a chip inductor will not cope with the power requirement.

#### DISCLAIMER

Unless otherwise stated in the datasheet, all products are designed for standard commercial and industrial applications and NOT for safety-critical and/or life-critical applications.

Particularly for safety-critical and/or life-critical applications, i.e. applications that may directly endanger or cause the loss of life, inflict bodily harm and/or loss or severe damage to equipment/property, and severely harm the environment, a prior explicit written approval from Murata is strictly required. Any use of Murata standard products for any safety-critical, life-critical or any related applications without any prior explicit written approval from Murata shall be deemed unauthorised use.

These applications include but are not limited to:

- Aircraft equipment
- Aerospace equipment
- Undersea equipment
- Power plant control equipment
- Medical equipment
- Transportation equipment ( automobiles, trains, ships, etc.)
- Traffic signal equipment
- Disaster prevention / crime prevention equipment
- Data Processing equipment

Murata makes no express or implied warranty, representation, or guarantee of suitability, fitness for any particular use/purpose and/or compatibility with any application or device of the buyer, nor does Murata assume any liability whatsoever arising out of unauthorised use of any Murata product for the application of the buyer. The suitability, fitness for any particular use/purpose and/or compatibility of Murata product with any application or device of the buyer remain to be the responsibility and liability of the buyer.

Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards that anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm, and take appropriate remedial actions. Buyer will fully indemnify and hold Murata, its affiliated companies, and its representatives harmless against any damages arising out of unauthorised use of any Murata products in any safety-critical and/ or life-critical applications.

Remark: Murata in this section refers to Murata Manufacturing Company and its affiliated companies worldwide including, but not limited to, Murata Power Solutions.

This product is subject to the following <u>operating requirements</u> and the <u>Life and Safety Critical Application Sales Policy</u>:
