## Description

The SMD T1210T-8G Triac can be used for the on/off or phase angle control function in general purpose AC switching with resistive loads. A Logic level T-series Triac, the T1210T-8G can be controlled directly from an MCU with a simplified circuit.

T-series triacs are optimized for high EMI constraints. The surface mount D<sup>2</sup>PAK package enables compact SMT designs for automated manufacturing.

D<sup>2</sup>PAK package's molding compound resin is halogen-free and meets UL94 flammability standard level V0.

Package environmentally friendly [Ecopack2](#) graded (RoHS and Halogen Free compliance).
