

**IRWIN.**

In 1933, a young man by the name of Hans Schroder set up as a wholesaler in Copenhagen, Denmark. During the first few years he kept his focus on selling general hand tools, but in 1938 he started to also manufacture saws. Amongst his friends and business associates Hans Schroder was known simply as Jack, and before long, the "Jack" name had become synonymous with the production of high quality saws.

IRWIN® Jack® has been at the forefront of many advances with the development of the market leading Jack® 880 Universal triple ground technology. The most recent innovation, EVO handsaw, with its unique handle-to-blade relationship continues to extend the capabilities of the tradesman.

## Marples

At the heart of quality craftsmanship lies the rich heritage of Marples® woodworking tools. Originating in 1828 in Sheffield, England, the Marples® brand has consistently stood for superior performance and ultimate precision in fine woodworking.

Founder William Marples came from a long lineage of master craftsmen in the joinery and edge tool trades, and after serving as an apprentice to his father he established William Marples and Sons Limited. Using only the finest materials Marples® had his name stamped into every product as a sign of his confidence in the quality and craftsmanship of each tool.
