

DBK ENCLOSURES

HPG Series

Decoding of MPN

e.g. RS stock nr. 725-6477

HPG- 1 / 09 - 40X35 - 100-240

1 = number of ceramic PTC stones embedded

09 = end temperature of heating core – 09 x 10°C = 90 °C

(Kindly bear heat losses in mind – core to aluminium housing – housing to mounting surface)

40x35 = size in mm

100-240 = supply voltage

To ensure better heat transfer the usage of graphite pads is recommended (e.g. RS 794-3998)
