MICRO-FIT 3.0 CONNECTOR SYSTEM FAMILY >

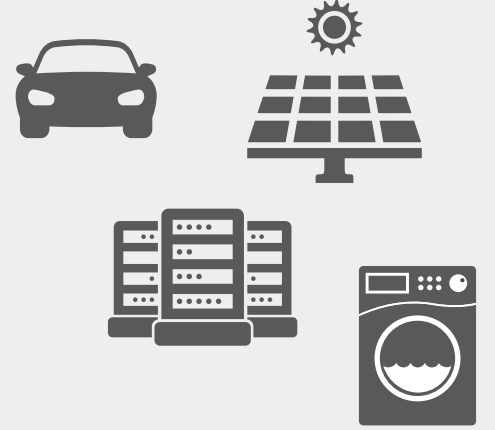

Delivering features to meet a wide range of design requirements

Functionality

Micro-Fit Connector System delivers up to **8.5A** in a compact **3.00mm**-pitch form factor.

Simplicity

Micro-Fit 3.0 Connector System offers features such as terminal position assurance, blind-mating and polarization for easy, accurate assembly.

Solving Design Challenges

Combining high performance with premium housing features to ensure reliable connectivity, Micro-Fit 3.0 Connector System provides an unrivaled range of options to over-come any engineering conundrum.
