

486 – 90 Degree Bent Nose Pliers

Product Description

The 90-degree bent 'nose' of this plier allows you to handle small components while keeping your wrist in a natural position.

This plier is strong but very light weight. It features a built-in return spring and soft, non-slip rubber hand grips for comfort and control.

Key Features

- The 90-degree bent nose allows for picking up even the smallest jump rings and then easily transitioning to an open/close of the ring, all while keeping the wrist in a natural position.
- Made from high carbon steel
- Tips are blackened to prevent glare
- Pick up tiny jump rings without wrist strain
