

NINGBO JIUYUAN ELECTRONIC CO.,LTD.

Programmable Power Supply

QJ3005P

QJ3003P

QJ3005P

FEATURES

- 1.High resolution 10mV/1mA, low noise and ripple.
- 2.Over current protection
- 3.Large LED display
- 4.Output On/OFF function
- 5.Panel save and recall
- 6.USB or RS-232 interface for communication
- 7.User friendly PC control software
- 8.Robust construction for education, industrial and professional users

Specifications

| | |
|--|--------------------------------|
| Models | QJ3003P/QJ3005P |
| Channel | Single channel |
| Output voltage | 0~30V |
| Ripple & noise | ≤ 1.0mV(rms) |
| Output current | 0~3A/ 0~5A |
| Ripple Current | 3mA(rms) |
| Short Circuit & Overload Protection | |
| AC input | AC110/220V |
| Frequency | 50/60Hz±2Hz |
| Operating Temperature | 0~40°C, <90% Relative Humidity |
| Safety Standard | CE |

- All values are based on the standard ambient Temperature 25°C and Pressure 0.1Mpa
- SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE
