Tork PeakServe®: the latest innovation designed for high-traffic washrooms where staff need to maximise cleaning time and maintain a good flow of people. Compatible with Tork PeakServe® Continuous™ hand towels, the system has a very high capacity of 2,100 towels, which can be dispensed quickly and without interruption to keep the flow. The compressed refills are fast to load, can be topped up at any time and are easy to store and transport, enabling staff to focus on cleaning, not refilling.

Key benefits:

- Compressed hand towels for increased capacity, reducing maintenance time required
- Continuous hand towels dispense smoothly, even between bundles, for a better bathroom flow with no hold ups for guests
- One-at-a-time dispensing for reduced consumption and increased hygiene
