Sales information

Positioning

- One for all. All with one. The right impact drill for all your projects

User benefit

- Drilling has never been easier – its very low weight and compact design make this tool exceptionally easy to handle
- Great drilling performance for outstanding versatility. Its powerful 700 watt motor makes this the right tool to have for every job – for all materials, even concrete.
- Bosch Speed-Preselection: Electronic speed preselection and control using setting wheel and trigger switch – for gearing the tool towards the material with fingertip control of the power, e.g. when starting to drill in smooth surfaces and when driving screws

Other features

- Screwdriving/Drilling/Impact drilling function switch for material-specific work
- Keyless chuck with Press&Lock – easy bit changing because the drill spindle is locked at the press of a button
- Forward/reverse rotation: Also ideal for screwdriving
- Compatible with the Bosch Drill Assistant for even greater precision: Easily set the drilling depth and work dust-free (optionally available as an accessory)
- Auxiliary handle with anti-slip function: Positive engagement fit prevents auxiliary handle from slipping off the collar
- New ergonomic design with even more softgrip for the best handling
- Convenient to use due to integrated switch for continuous operation
- Cable guide with hanging hook for practical storage
