Inductors for power circuits

Wound ferrite

VLS-E series

VLS3010E type

VLS3010E

A Caution

The products in this catalog is not recommended to a new design

Please refer to our Web site about replacement information.

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

 The storage period is less than 12 months. Be sure to follow the stor or less). If the storage period elapses, the soldering of the terminal electrode 								
\bigcirc Do not use or store in locations where there are conditions such as	gas corrosion (salt, acid, alkali, etc.).							
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature of does not exceed 150°C. 	lifference between the solder temperature and chip temperature							
 Soldering corrections after mounting should be within the range of the If overheated, a short circuit, performance deterioration, or lifespane 	-							
O When embedding a printed circuit board where a chip is mounted to the overall distortion of the printed circuit board and partial distortion								
 Self heating (temperature increase) occurs when the power is turned design. 	d ON, so the tolerance should be sufficient for the set thermal							
 Carefully lay out the coil for the circuit board design of the non-magn A malfunction may occur due to magnetic interference. 	netic shield type.							
\bigcirc Use a wrist band to discharge static electricity in your body through	the grounding wire.							
\bigcirc Do not expose the products to magnets or magnetic fields.								
O Do not use for a purpose outside of the contents regulated in the de	livery specifications.							
 The products listed on this catalog are intended for use in general elequipment, home appliances, amusement equipment, computer equequipment, industrial robots) under a normal operation and use con The products are not designed or warranted to meet the requiremen quality require a more stringent level of safety or reliability, or whose society, person or property. If you intend to use the products in the applications listed below or if set forth in the each catalog, please contact us. 	uipment, personal equipment, office equipment, measurement dition. ts of the applications listed below, whose performance and/or failure, malfunction or trouble could cause serious damage to							
 (1) Aerospace/Aviation equipment (2) Transportation equipment (cars, electric trains, ships, etc.) (3) Medical equipment (4) Power-generation control equipment (5) Atomic energy-related equipment (6) Seabed equipment (7) Transportation control equipment 	 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications 							
When designing your equipment even for general-purpose applications protection circuit/device or providing backup circuits in your equipment.

Inductors for power circuits Wound ferrite

Product compatible with RoHS directive Halogen-free Compatible with lead-free solders

Overview of VLS3010E type

FEATURES

O Magnetic shield type wound inductor for power circuits.

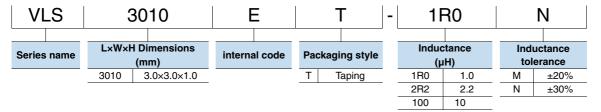

○ Low-profile product.

O High magnetic shield construction and compatible with high-density mounting.

APPLICATION

Smart phones, tablet terminals, HDDs, SSDs, DVCs, DSCs, mobile display panels, portable game devices, compact power supply modules, other

PART NUMBER CONSTRUCTION

OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Temperat	ure range	Package quantity	Individual weight
Туре	Operating temperature*	Storage temperature**		
	(° C)	(° C)	(pieces/reel)	(mg)
VLS3010E	-40 to +105	-40 to +105	2000	36

* Operating temperature range includes self-temperature rise.

** The Storage temperature range is for after the circuit board is mounted.

O RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

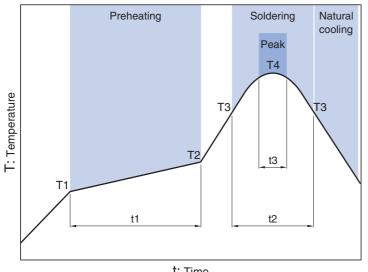

O Halogen-free: Indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.

Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.
