| Warranty | 24 months |

Description

Akyga® AK-SW-14 is used to charge the **Xiaomi Mi Band 5** smartband. It is a **50 cm cable** terminated on one side with a universal **USB connector**, which allows you to charge the band using any device equipped with a USB port. Thanks to that it up you to decide which power source you will use, it can be a powerbank, laptop or mains charger. On the other side of the cable there is a **magnetic tip** which, thanks to a built-in magnet, keeps the watch in position and thus prevents the smartwatch from unintentionally detaching from the charger. What's more, thanks to the **spring pins**, you can be sure that the adapter fits perfectly into the contacts of the wristband.
