

#### **Features**

- Limiting continuous current 40 A at 85°C
   Pin assignment similar
- to ISO 7588 part 1
- Plug-in or PCB terminals
   Also available for 42 V applications
- Customized Versions on Request
- 24 V versions with contact gap > 0.8 mm
- Integrated components (e.g. resistor, diode)
- Customized marking/color
  Special covers (e.g. notches,
- release features, brackets)
   Various contact arrangements and materials
- For latching (bistable) version refer to Mini Relay Latching
- For shrouded/weatherproof dust cover versions refer to Shrouded Power Relay F4 A and VF4 A

#### **Typical Applications**

Cross carline up to 40 A for example:

- ABS control
- Blower fans
- Car alarm
- Cooling fan
- Electric Power Steering
- Energy management
- Engine control
- Fuel pump
- Heated front screenIgnition
- Immobilizer
  - Lamps front, rear, fog light
- Main switch/supply relay
- Seatbelt pretensioner
- Trunk lock

\_

- Valves
- Window lifter
- Wiper control

Please contact Tyco Electronics for relay application support.

#### Design

- ELV/RoHS/WEEE compliant
- Dustproof: protection class IP54 to IEC 529 (EN 60 529)
- Sealed: protection class IP67 to IEC 529 (EN 60 529)

### Weight

Approx. 35 g (1.2 oz.)

### **Nominal Voltage**

12 V or 24 V; other nominal voltages available on request

### Terminals

Quick connect terminals similar to ISO 8092-1, coil and load 6.3 x 0.8 mm; surfaces tin plated or PCB terminals

#### **Accessories**

Connectors see page 229 ff

### Conditions

All parametric, environmental and endurance tests are performed according to EIA Standard RS-407-A at standard test conditions unless otherwise noted: 23°C ambient temperature, 20 - 50% RH, 998.9 ±33.9 hPa.

134\_3Dco\_1

For general storage and processing recommendations please refer to our Application Notes and especially to *Storage* in the "Glossary" page 23 or at http://relays.tycoelectronics.com/ appnotes/

### Disclaimer

All technical performance data apply to the relay as such, specific conditions of the individual application are not considered. Please always check the suitability of the relay for your intended purpose. We do not assume any responsibility or liability for not complying herewith. We recommend to complete our questionnaire and to request our technical service. Any responsibility for the application of the product remains with the customer only. All specifications are subject to change without notification. All rights of Tyco Electronics are reserved.

| Max switching rate at nominal load  |                       |                       | 6 operations pe        | r minute (0.1 Hz)       |                       |                       |                       |  |

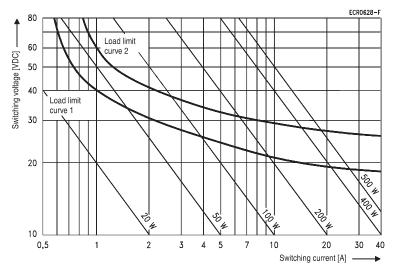

1) The values apply to a resistive or inductive load with suitable spark suppression and at maximum 14 V for 12 V or 28 V for 24 V load voltages.

 $^{2)}$  For a load current duration of maximum 3 s for a make/break ratio of 1:10.

<sup>3)</sup> Special high performance 24 V version with contact gap > 0.8 mm, part number V23134-A0056-X432/-X433 (see ordering information).

4) See chapter Diagnostics of Relays in our Application Notes page 31 or consult the internet at http://relays.tycoelectronics.com/appnotes/

### Load Limit Curve

Load limit curve  $1 \stackrel{\circ}{=} arc$  extinguishes during transit time (changeover contact)

Load limit curve  $2 \stackrel{\scriptscriptstyle \triangle}{=}$  safe shutdown, no stationary arc (make contact)

| Available for nominal voltages   | 12 V / 24 V                                    |
|--|--|
| Nominal power consumption of the unsuppressed coil at nominal voltage  | 1.6 W  |
| Nominal power consumption at nominal voltage with suppression resistor | 1.8 W / 2.6 W (standard/high performance 24 V) |
| Test voltage winding/contact   | 500 VAC <sub>rms</sub>                         |
| Ambient temperature range  | -40 to +125°C                                  |
| Operate time at nominal voltage  | Typ. 7 ms                                      |
| Release time at nominal voltage 1)                                     | Typ. 2 ms                                      |

1) For unsuppressed relay coil.

Note:

A low resistive suppression device in parallel to the relay coil increases the release time and reduces the lifetime caused by increased erosion and/or higher risk of contact tack welding.

#### **Operating Voltage Range**

All specifications subject to change. Consult Tyco Electronics for latest specifications

| Mechanical Data                               |  |
|---|--|
| Cover retention                               |  |

<sup>1)</sup> Allowable overdrive is stated with no load applied and minimum coil resistance.

### Standard Delivery Packs (orders in multiples of delivery pack)

| Power F4     | Quick connect version:      | 315 pieces |
|--------------|-----------------------------|------------|
|              | Quick connect with bracket: | 200 pieces |
|              | PCB version:                | 200 pieces |
| VF4-1, VF4-4 |                             | 300 pieces |
