SoftFinish® electric slimBit, slotted.

Increases your saftey: Wiha slimBits ensure unrestricted and fully insulated access to low-lying screws.

Wiha slim blades grant unhindered, fully insulated access to low-lying screws.

Protects your health: Protects your health With patented SoftFinish® handle design for fatigue-free,

manual operation. Recommended by German doctors and therapists of the AGR.

Increases your efficiency: Saves space due to comprehensive interchangeable blade system.

Unique concept of screwdriver handle sizes for an optimum balance between

torque and control.

Offers you full protection: Each piece individually tested at 10.000 V AC.

Standards: Manufactured acc. to IEC 60900:2012.

Material: High-quality chrome vanadium steel, through-hardened, bronzed.

Protective insulation moulded directly onto the bit and completely integrated into

the blade in the lower area from size 4.0.

Application: For all work on or around electrical components up to 1,000 V AC.

Extra: The integrated protective insulation enables low-lying fastening and spring

elements to be reached and manipulated.

The slim form of the bit allows easy reaching of the screws below the finger and

hand guards.

Note: Tool tested at 10,000 V AC
