

# ASCO™ Spool Valves

single/dual solenoid (mono/bistable function) - pilot operated or air operated  
aluminium body - "NAMUR" style - 1/4 and 1/2 tapped

3/2 NC - 5/2 - 5/3  
SERIES  
551 - 553

## Features

- The monostable spool valves in conformity with IEC 61508 Standard (2010 route 2<sub>H</sub> version) have TÜV (551 series) and EXIDA (551-553 series) certified with integrity levels: SIL 2 for HFT = 0 / SIL 3 for HFT = 1
- The spool valves have threaded port connections and "NAMUR" style interface
- The same spool valve can be adapted for 3/2 NC or 5/2 functions for controlling double-acting and single-acting actuators
- All the exhaust ports of the spool valve are connectable, providing better environmental protection. Particularly recommended for sensitive areas, such as clean rooms, and applications in the pharmaceutical and food processing sectors
- The valves offer environmental protection against the ingress of liquids, dusts or other foreign matter (environmentally-protected construction)
- Epoxy moulded coil for general service applications
- The solenoid valves satisfy all relevant EU Directives

## General

Differential pressure 2 - 10,4 bar [1 bar = 100 kPa]  
Flow (Qv at 6 bar) 1/4 = 700 l/min (ANR)  
1/2 = 3000 l/min (5/2, 5/3)

fluids (*)	temperature range (TS)	seal materials (*)
air, inert gas, filtered	-25°C to +60°C	NBR (nitrile) + PUR (polyurethane)

## Materials in contact with fluid

(\*) Ensure that the compatibility of the fluids in contact with the materials is verified

Body, end cover	Aluminium, black anodized
End cover (spring return)	Glass fibre filled PA
Interface plates	Glass fibre filled PA
Spool valve internal parts	Zamak, stainless steel, POM, aluminium
Seals	NBR + PUR
Core tube	Brass
Core and plugnut	Stainless steel
Shading coil	Copper

	S	L				Certified IEC 61508 Functional Safety data <sup>(1)</sup>	-	●	-	●

### Product selection guide

#### STEP 1

Select basic catalogue number, including pipe thread identification letter. Refer to the specifications table on page: 1 or 2

**Example: G551A001**

#### STEP 2

Select prefix (combination). Refer to the specifications table and the prefix table, respect the indicated power level.

Air operated version, does not use prefix.

**Example: SC**

#### STEP 3

Select suffix (combination) if required. Refer to the suffix table, respect the indicated power level.

GD suffix available for air operated version only (do not use manual operator suffix).

**Example: MS**

#### STEP 4

Select voltage. Refer to standard voltages on page: 4

**Example: 230V / 50Hz**

#### STEP 5

Final catalogue / ordering number

**Example:**

**SCG551A001MS 230 V / 50 Hz**

### Options & Accessories

series	pipe size	exhaust protector (stainless steel)

		G	553 A 102		
		G	551 A 102	GD	
		G	551 A 101	GD SL	
	SC	G	551 A 001	SL	230V / 50 Hz

prefix — pipe thread — basic number — voltage — suffix

# 3/2 NC - 5/2 - 5/3 SERIES 551 - 553

## Explanation of temperature ranges of solenoid valves

Valve temperature range	The valve temperature range (TS) is determined by the selected seal material, the temperature range for proper operation of the valve and sometimes by the fluid (e.g. steam)
Operator ambient temperature range	The operator ambient temperature range is determined by the selected power level and the safety code
Total temperature range	The temperature range of the complete solenoid valve is determined by the limitations of both temperature ranges above

## Electrical characteristics

Coil insulation class	F
Electrical safety	IEC 335

<sup>(1)</sup> Refer to the dimensional drawings on pages: 5 to 7 (Air operated versions: Refer to the dimensional drawings on pages: 7).

<sup>(2)</sup> Multiple coil kits are available under ATEX/IECEx, contact us

## Electrical connections

prefix	connection
SC	Type 01: Spade plug connector with cable gland DIN 43650, 11 mm, industry standard B, for cables with an outer diameter from 6 to 8 mm Type 02: Spade plug connector with cable gland EN175301-803A (ISO 4400) for cables with an outer diameter from 6 to 10 mm
PV	Moulded-in cable, standard length 2 m
WBLP	M20 cable gland for cables with an outer diameter from 7 to 8,5 mm
EF	1/2" NPT conduits
JBEF	EF + Junction box

## Additional options

- Other pipe threads are available on request
- Coil type CM25 with connector size 30 ISO 4400 (Pg 11P) (551 Series)
- Polyamide coil
- Ex mb (prefix "PV") solenoid can be supplied with various cable lengths
- Set of stainless steel mounting screws (series 551), catalogue number: **97802212**
- Set of two G 1/8 exhaust reducers (series 551), catalogue number: **88100344**

## Installation

- Multi language installation/maintenance instructions are included with each valve
- The valves can be mounted in any position without affecting operation
- Do not connect the pressure supply to the exhaust port 3. The "environmentally-protected" construction is not adapted for NO function. Contact us for function available in specific version
- IEC 61508 Functional Safety (suffix SL). Check temperature range of valve body and solenoid for suitability. For probability of failure, contact us
- 3/2 NC-5/2 spool valve supplied with one or two interface plates with NAMUR mating surfaces. Depending on function (3/2 NC or 5/2), position the plate (series 551) or one of the two plates (series 553) on the spool valve body before installing on actuator
- It is necessary to connect pipes or fittings to the exhaust ports to protect the internal parts of the spool valve and its pneumatic operator if used outside or in harsh environments (dusts, liquids etc.)
- Dowel pin (if necessary), bolts and gaskets are standard supplied
- Threaded pipe connection identifier is 8 = NPT (ANSI 1.20.3); G = G (ISO 228/1)
