UL1363a, Paragraph 14.1(d) States "The SPRPT shall be permanently attached to the medical equipment by a means such that it is only removable with the use of a tool." To achieve compliance, one must use

the PSCLAMP. Safe-IT UL 1363A Medical-Grade Power Strip for Patient-Care Vicinity, 4x 15A Hospital-Grade Outlets, 15 ft. Cord

MODEL NUMBER: PS-415-HG-OEM

Supplies power to movable plug-connected components mounted to IV poles, mobile carts, crash carts

and mobile medical workstations in operating rooms and patient-care vicinities.

Description

The PS-415-HG-OEM Medical-Grade Power Strip supplies power to movable plug-connected components mounted to a rack, table or pedestal in operating rooms, patient-care vicinities, therapy rooms, imaging environments and administrative areas. Compliant with UL 1363A specifications, this 120V, 50/60 Hz power strip features a NEMA 5-15P-HG hospital-grade plug and four NEMA 5-15R-HG hospital-grade outlets.

The power strip is protected by a patented antimicrobial powder coating with EPA-registered and FDAcompliant silver ionic technology. The antimicrobial surface protection is 99.9 percent effective in inhibiting the growth of bacteria and reducing the risk of HAIs in hospitals and other medical environments. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

Two built-in resettable 15A circuit breakers control power to all outlets and protect the power strip against overloads. Switchless design prevents the unit from being accidentally shut off. The 15-foot (4.6 m) power cord provides ample reach to the power source.

Mounting tabs and flanges let you install the PS-415-HG-OEM on a wide variety of surfaces, such as IV poles, mobile carts, crash carts and mobile medical workstations. The all-metal housing ensures safety and is guaranteed to last a long time in demanding environments.
