

### **Industrial Power Supplies**

TPC Series, 30 to 120 Watt

#### **Features**

- For industrial, office and residential environments
- Meets European ErP directive (green mode), <0.3 W no load power consumption
- High efficiency across full load range
- Compact plastic casing
- Reliable snap-on mounting on DIN-rails or with wall mounting bracket (not included)
- Universal input 85–264 VAC, 47–63 Hz
- Models with 5, 12, 24 & 48 VDC output
- Output voltage adjustable
- Power good signal
- Low ripple and noise
- Overload and short-circuit protection
- Optional module for parallel and redundant operation
- Worldwide safety approval package
- 3-year product warranty

The TRACOPOWER TPC series is a family of lightweight DIN-rail power supplies with an excellent price/performance ratio. They consume sparse standby power, and operate with high efficiency to comply with the requirements of the European Ecodesign directive. They have universal input of 85-264VAC or 90-375VDC and are designed for class I operation in industrial and residential environments. With the optional active current sharing redundancy module, these power supplies provide a very reliable true redundant DC supply. For further details see page 3.

TPC-REM240-48	48 VDC		48 – 55 VDC	5 A	

These modules are external units for operation with two TPC power supplies with output voltage of 24 VDC or 48 VDCand of same type and power. The modules allow to connect two outputs of TPC power supplies together in order to achieve a reliable DC supply. In normal operation the module achieves equal current share for both power supplies connected. During the redundancy operation, if one of the power supplies fails, the output power will be provided in full by the remaining operating power supply. The redundancy of the DC system is monitored by a DC-OK signal.

#### **Specifications**

Operating temperature	-25°C to +70°C max. (with derating)
Electromagnetic compatibility	in correspondence to connected units (no internal switching device)
Dimensions	same as model TPC 055 (see page 4)
Connection	screw terminal block
Installation instructions – installation document	www.tracopower.com/overview/tpc

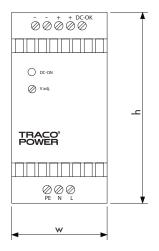

All specifications valid at nominal input voltage, full load and +25°C after warm-up time unless otherwise stated.
