TE Connectivity

Product Change Notification: PCN-24-201503

PCN Date: 07-MAR-24

Customer: RS Components (1271907)

Location: Northans

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)
Platinum thin film temperature sensors on ceramics substrate

General Description of Changes

Change blue fixation material to lead free composition. Slightly change of blue color can occur compared to the current state.

Composition of blue wire fixation material contents some lead. This is currently covered by an exceptional permission.

New fixation material is lead free now and complies to RoHS. No exceptional permission needed.

Reason for Changes:

The current pin fixation material composition contents lead (Pb) which is currently handled by an exception regulation. To keep the parts RoHS compliant in the future the fixation material composition is changed to a lead free composition.

PCN Attributes:

Product Category:	Kind of Change:
Sensors	Material
Change Feature:	Potential Customer Impact:
Material Change	No Customer Impact
Remarks:	
Slightly change of blue color can occur compared to the current state.	

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Ship Date of Changed Items (Changed Parts Only):
	15-AUG-2024
Last Ship Date of Changed Items (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
Effectivity Date:	Date of First Samples:
