

13 mm, Coarse 60 Grit, 3.2 mm

The band is made out of aluminum oxide. Coarse 60 Grit. Mandrel 3.2 mm shank included.

Part Nr:
2615040732

EAN Code:
8710364007226

Tips & Tricks:

Ideal for rough shaping and smoothing wood and fiberglass; removing rust from metal surfaces; shaping rubber surfaces. Sander bands are easily replaceable on drums. We advise to use a slow speed with this accessory. Start your work with the coarse bands or disks and finish with the finer grits. Your sanding will be most effective when you use a very light touch.
