Type SVT

PRODUCT INFORMATION

The split conduit fitting is made of specially modified polyamide 6. The material is selfextinguishing, and halogen, phosphor and cadmium-free.

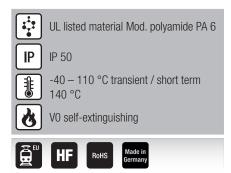

The fittings are used when cable protection conduits fitted with pre-assembled cables need to be fixed or cable protection conduits need to be retrofitted. The SVT is ideal for connecting to our split EWT cable protection conduits and all other Murrflex cable protection conduits with standard corrugation. Particular benefits of the SVT conduit fitting include:

- Subsequent installation or repairs
- Perfect for use with the GMT split lock nut
- Very good system tear-out strength
- Compact design
- Easy assembly and disassembly

Specification:

• EN 45545-2:2016 3x HL3
