

Two-volume revolving handles

• Material

High resilience polypropylene based (PP) technopolymer, coated with "soft-touch" thermoplastic elastomer (TPE) chemically bonded, hardness 70 Shore A.

The coating material is certified in compliance with FDA (U.S. Food and Drug Administration).

Resistant to solvents, oils, greases and other chemical agents.

• Colour

Black, matte finish.

• Standard executions

Zinc-plated steel shank, hexagon socket at threaded end.

- IEL+x: without ring.

- IEL+x-A: with matte anodised aluminium ring (ELESA original design).

Features and applications

The coating, with "soft-touch" elastomer, improves the grip even in the presence of oils, greases and sweat from the hand. For this reason it is suitable for fitness machines, tools and machines for gardening and goods transport, high-precision instruments and disability aids.

Special executions on request

IEL+x-H: with magnifying lens for labels with marks and symbols.
