# SiHP065N60E

**Vishay Siliconix** 

# **E Series Power MOSFET**

| PRODUCT SUMMARY                            |                 |       |  |  |  |
|--|-----------------|-------|--|--|--|
| V <sub>DS</sub> (V) at T <sub>J</sub> max. | 650             |       |  |  |  |
| R <sub>DS(on)</sub> typ. (Ω) at 25 °C      | $V_{GS} = 10 V$ | 0.057 |  |  |  |
| Q <sub>g</sub> max. (nC)                   | 74              |       |  |  |  |
| Q <sub>gs</sub> (nC)                       | 19              |       |  |  |  |
| Q <sub>gd</sub> (nC)                       | 15              |       |  |  |  |
| Configuration                              | Single          |       |  |  |  |

### **FEATURES**

- 4<sup>th</sup> generation E series technology
- Low figure-of-merit (FOM) Ron x Qa
- Low effective capacitance (C<sub>o(er)</sub>)
- Reduced switching and conduction losses
- Avalanche energy rated (UIS)
- Material categorization: for definitions of compliance please see <u>www.vishay.com/doc?99912</u>

### **APPLICATIONS**

- · Server and telecom power supplies
- Switch mode power supplies (SMPS)
- Power factor correction power supplies (PFC)
- Lighting
  - High-intensity discharge (HID)
  - Fluorescent ballast lighting
- Industrial
  - Welding
  - Motor drives
  - Battery chargers
  - Solar (PV inverters)

| ORDERING INFORMATION            |                 |  |  |  |
|---------------------------------|-----------------|--|--|--|
| Package                         | TO-220AB        |  |  |  |

#### Notes

a. Repetitive rating; pulse width limited by maximum junction temperature

- b.  $V_{DD}$  = 120 V, starting T<sub>J</sub> = 25 °C, L = 28.2 mH, R<sub>g</sub> = 25  $\Omega$ , I<sub>AS</sub> = 4.0 A
- c. 1.6 mm from case
- d.  $I_{SD} \leq I_D$ , dl/dt = 400 A/µs, starting  $T_J$  = 25 °C

#### Notes

a.  $C_{oss(er)}$  is a fixed capacitance that gives the same energy as  $C_{oss}$  while  $V_{DS}$  is rising from 0 % to 80 %  $V_{DSS}$ 

b. Coss(tr) is a fixed capacitance that gives the same charging time as Coss while VDS is rising from 0 % to 80 % VDSS

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Hyperlinks included in this datasheet may direct users to third-party websites. These links are provided as a convenience and for informational purposes only. Inclusion of these hyperlinks does not constitute an endorsement or an approval by Vishay of any of the products, services or opinions of the corporation, organization or individual associated with the third-party website. Vishay disclaims any and all liability and bears no responsibility for the accuracy, legality or content of the third-party website or for that of subsequent links.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
