Product Description

Elevate your washroom experience with trusted and familiar Scott® Control™ washroom solutions, designed to support compliance control and help you stop the spread of germs in the workplace. For busy washrooms demanding consistent hand hygiene and efficiency, choose Scott® Control™ interfold hand towels. Scott® Control™ hand towels are softer, more absorbent and stronger than conventional towels, providing consistent quality at an affordable price. Unique Airflex™ technology ensures that each lightweight single-ply paper towel is absorbent and strong, even when wet, preventing them from becoming soggy or ripping. These small disposable hand towels are designed to be kind to the skin for frequent hand drying, actively encouraging hand hygiene compliance. Scott® Control™ interfold hand towels are designed to dispense one paper hand towel at a time. This single sheet dispensing method is designed to improve hand hygiene by minimising the risk of contamination when hand drying as the user only touches the sheet they're using. Dispensing one paper towel at a time is also designed to reduce waste and refill frequency as the user only takes the hand towels they need, providing exceptional cost in use. Scott® Control™ hand towels carry the European Ecolabel; your guarantee that they are manufactured responsibly at every step of the process. The compressed packs also ensure up to 18% more paper towels per case. Scott® Control™ interfold hand towels are compatible with a variety of Kimberly-Clark™ paper towel dispenser options: Aquarius™ folded hand towel dispensers in white (product codes 6945 and 6956) or black (code 7171), a high capacity dispenser (code 9962) and a high image stainless steel dispenser (code 8971). Each 1 ply paper towel measures 21cm (L) x 20cm (W). 15 Packs x 304 White Paper Hand Towels (4,560 Total)

Product Features

- Each pack of Scott® Control™ interfold hand towels contains 304 small, 1 ply, white hand towels
- Made using unique Airflex™ Technology, every paper towel is soft, strong and highly absorbent even when wet, providing an ideal hand drying solution for busy offices and hotel washrooms
- The clever, interfolded design dispenses one paper hand towel at a time, improving workplace hygiene, reducing wastage and refill frequency and providing exceptional cost in use
- Compressed packs ensure up to 18% more hand towels per case and these disposable paper towels are also European Ecolabel certified for hand hygiene with environmental assurance
- Compatible with a variety of Kimberly-Clark Professional™ and Aquarius™ folded hand towel dispensers

Marketing

Healthy Workplace Project

EMPLOYEE : * Health and Wellbeing of the individual * Improved hygiene facilities * Improved awareness of benefits of good hygiene * Being cared for by their employer * Reduction of illness at work and home
 EMPLOYER : * THE HEALTHY WORKPLACE PROJECT*, creating a healthier and more engaged workforce * Reduced sickness helps lower absenteeism * Engaged employees are more likely to "go the extra mile"

Solution

Healthier Workplace

The HEALTHY WORKPLACE PROJECT* is a comprehensive office hygiene programme which helps engage employees and reduce sickness.

Standard R+E

Food Contact Regulations

This product is suitable for food contact and complies with Regulation (EC) No. 1935/2004. Furthermore, nitrile rubber gloves comply with Regulation (EC) No. 10/2011 and German Recommendation, BfR No. XXI, and paper products comply with German Recommendation, BfR No. XXXVI.

AIRFLEX* Technology

AIRFLEX*

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Trade

ISO 14001

ISO 14001 is an international environmental standard. Designed to help organisations ensure that operations comply with environmental laws, and; major environmental risks and liabilities are properly identified, minimised and managed.

ISO 9001

This gives the requirements for quality management systems, is now firmly established as the globally implemented standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships.

Regulation (EC) No 66/2010 of the European Parliament

The European Ecolabel scheme encourages businesses to market products and services that are kinder to the environment. Only products that meet strict environmental standards are entitled to use the Ecolabel accreditation.
