

Technical Data Sheet

Duck® Hazard Tape

223533 - 60mm x 66m Yellow / Black Striped Tape

Properties

- Flexible backing that is resistant to abrasion, acid, alkalides, oils, moisture, humidity and corrosion
- Single sided adhesive

Area of Use

- Lane marking and identification of safety zones and hazard areas

Colours

Yellow / Black Stripe

Technical Data

Thickness mm	: 0.04
Backing	: PVC film
Adhesive	: Rubber
Tensile Strength	: 50 N / 10mm
Adhesion to Steel	: 2.2 N / 10mm
Elongation	: 60%
Service Temperature Range	: 0°C to 65°C

Storage and Usage Conditions

Tape should be stored in its original packaging in a cool, dry area away from direct sunlight and should be used within 9 months of date of shipment. Surfaces to which tape is applied should be clean, dry and free of grease, oil, moisture, dirt or other contaminants.

Physical and performance characteristics shown above are obtained by tests recommended by PTSC, ASTM, government agencies or Shurtape Technologies, LLC, Quality Assurance and Technical Services Department and do not represent a guarantee of product performance. Individual rolls may vary slightly from these averages.

The user should determine whether a product is fit for a particular purpose and is suitable for the user's method of application before use.
