

New Range

Laser Safety Glasses

Laser Safety Eyewear

To compliment our wide range of laser diodes modules we have introduced a new range of laser safety eyewear to protect laser users against harmful laser output.

Our new range of glasses cover our full selection of laser modules and are available in a wide variety of styles and filter types including neutral density and blockouts.

The safety glasses are covered by a lifetime warranty, proving that the quality and structure of the components used are of the highest level of quality.

Further information about our laser safety glasses can be obtained by visiting
