# About Bel

---

Bel is a publicly traded company that has been operated by the same family for over 65 years. Our history of organic growth and acquisitions have broadened our product portfolio. This has established Bel as a world leader with a diverse offering of power, protection and interconnect products. We design and manufacture these products which are primarily used in the networking, telecommunications, computing, military, aerospace, transportation and broadcasting industries. Bel's portfolio of products also finds application in the automotive, medical and consumer electronics markets.

# About Cinch Mil/Aero Circulars

---

Cinch Mil/Aero Circulars connectors and custom connectors available with hermetic sealing in any circular connector configuration. These glass-sealed packages are used mostly in critical components and assemblies for aerospace use, where leakage must be prevented even under extreme changes in temperature, pressure, and humidity.

Cinch's MD Connectors deliver highly reliable performance equal to MIL-DTL-38999. Key Markets are military, aerospace, medical and down-hole applications. The MD is offered at a reduced size and weight.

## Introduction

The MD 801 Series connector features a Dual-Start ACME thread for protection against cross mating and vibration. Designed for military and aerospace, the shells can be ordered in aluminum or stainless steel, with several options for finishes. The connectors are available as plugs or receptacles with standard crimp or PC Tail contacts, for board mount applications. Available in shell sizes 5 through 13 with multiple insert arrangement configurations.

- Miniature 38999 Plug with Solder or Crimp Contacts
- Miniature 38999 Jam Nut or Box Mount Receptacle with Solder, Crimp or PC Tail Contacts
- Standard or Specialty Platings Available

## Features

- Full Performance in Extreme Environments
- Available in Crimp, Solder and PC Tail Terminations
- Shell Styles Include Jam Nut Receptacle, Square Flange Receptacle and In-Line Plugs
- Available in 6, 7, 8, 9, 10, 13 Shell Sizes
- Contact Arrangements Range from 1 to 130 Contacts

# Dual-Start ACME Thread with PC Tails

## Receptacle Ordering Information

**MD801- 011 -02 MT 9-19 S A**

### Series Designation

**MD801-** = Dual start ACME Thread

### Series

**011** = Receptacle for PC tail or solder cup contacts

**033** = Receptacle for PC tail or solder cup contacts, water immersion

### Shell Style

**-02** = Receptacle, square flange

**-07** = Receptacle, jam nut

**-12** = Receptacle, square flange, rear panel mount with non-locking clinch nuts

**-22** = Receptacle, square flange, rear panel mount with locking clinch nuts

### Shell Material/Finish

**NF** = Aluminum / Cadmium with olive drab chromate

**C** = Aluminum / Black hard anodize, RoHS

**Z1** = Stainless Steel / Passivated, RoHS

**ZNU** = Aluminum / Black Zinc Nickel over Electroless Nickel

**MT** = Aluminum / Nickel PTFE

**M** = Aluminum / Electroless Nickel, RoHS

### Shell Keying

See Table 3 (Receptacle)

### Contact Type

**P** = Pin, PC Tail

**S** = Socket, PC Tail

**E** = Pin, Solder Cup

**F** = Socket, Solder Cup

### Shell Size/Insert Arrangement

See Page 10, Figure 1

## About Cinch Connectivity Solutions

For over 100 years, Cinch Connectivity Solutions has manufactured high-quality and reliable high-performance connectors and cable assemblies. Cinch is recognized as a world class connectivity supplier of RF, fiber optic, hybrid, microwave components, circular, d-subminiatures, modular rectangular, electronic enclosures and cable assemblies.

Cinch provides innovative solutions to the military, commercial aerospace, networking, telecommunication, test and measurement, oil and gas and other harsh environment industries.
