 You will need to create an Administrator for the software by filling in the required information in the setup wizard. Make sure you keep a note of your login details!

3 Software Settings

States Pacado
Installation name: 54(15-07P2
365 days
De anouri of tree of inactivity lettere the user to automatically legislet out.
Default Roution for saving Avenable data
Except Defaul Location for party

 These are global settings that apply to all users of the software, some of which are required as part of the 21CFR standard.

For a full product data sheet for your data logger, or for more information on the rest of the EasyLog range visit www.lascarelectronics.com

2 Email Settings

 You may need to ask your IT support or email service provider for the required details. More information can be found in the software's helpfile.
If you aren't sure of the details, you can skip this step and come back to it later.

4 Create Additional Users

Additional users can then be set up from the Admin menu if required. New users will be asked to create a password when they first log in.

You are now ready to start data logging with EasyLog 21CFR

For more information on how to use EasyLog 21CFR, please see the help file in the software. This can be found by clicking 'Help' > 'Help Topics'.

IMPORTANT SAFETY INFORMATION

logging session.

Repairing or Modifying

Never attempt to repair or modify Lascar products. Dismantling them, other than for the purpose of changing replaceable batteries, may cause damage that is not covered under the warranty. Servicing should only be provided by an authorized supplier.

Disposal and Recycling Information

You must dispose of Lascar products in accordance with relevant laws and regulations. They contain electronic components and lithium batteries and therefore must be disposed of separately from household waste.
