

YOUR
ADVANTAGE

- Quick mounting due to screwless assembly.
 Saves time and costs.
 Disassembly can be carried out by a small flat screwdriver.
- Secure joining of components by plugging in and snapping together.
- Modern and fashionable design.
- Different heights of cases for individual configurations.
- Sloping control panel available as an accessory for the flat / high combination cases as well as for the high / high combination for MOTEC L.
- Recessed area allows easy assembly of membrane keyboards and is also suitable for mounting LCDs.
- Wide control panel.
- Front and rear panels available as accessory.
- Versions with handle bar for canting the unit (L, M).

STANDARD
COLOURS

Off-white, RAL 9002.
 Fine textured surface.
 Please refer to colour chart on page 214.

MATERIAL

High-impact Polystyrene (UL 94 HB) or ABS (UL 94 V-0)
 Also available in other materials on request. Please refer to the specifications on pages 215-217.

APPLICATIONS

Measuring and control technology, feedback control, peripheral devices and interfaces, switchboxes, modems, medical field and laboratory technology.

- ① Top
- ② Base
- ③ Self-adhesive non slip feet
- ④ Aluminium-Front / rear panel*
- ⑤ Sloping control panel*

* Accessories

ASSEMBLY/
DISASSEMBLY

Clip together mechanism.
 Disassembly by tool only.
 (Small flat screw driver)

EMC

Cases marked with \neq are available with aluminium metallization on demand. In order to guarantee secure bonding, an especially conductive front plate has to be used (not part of standard accessory).
 See pages 207-209.

MODERN, FUNCTIONAL, AESTHETIC DESIGN.

Specially designed OKW-case system for desktop devices.

Case shells of different heights are combined to give a large range of cases. The cases are available in 3 plan sizes with 3 different heights for each.

New in the programme: MOTEC made of flame resistant material ABS (UL 94 V-0).

MODIFICATIONS
AS PER
CUSTOMER'S
REQUIREMENTS

Machining on modern CNC-controlled machines.
 Lacquering, Silk screen and tampo printing.
 See pages 210-213.

DESIGN

Small-size desktop case. Flat and high case shells are combined. Open front and rear. Vertical guide ridges for aluminium panels are provided at the front and rear. Screw pillars for PCB mounting in both shells. A sloping control panel (accessory) is also available for the flat / high combined case and is fitted into existing guides. Clip together mouldings. Disassembly can be carried out by tool only (small flat screw driver).

SUPPLY

Top and base.
4 self-adhesive clear non-slip feet.

Detailed drawing available on demand in dwg or dxf format.

For flat / high combination with handle bar see page 132.

MOTEC L AND M WITH HANDLE BAR

MOTEC L AND M WITH HANDLE BAR

With handle bar in the flat / high case combination.

For carrying and canting the unit. With 30 degrees indexing.

The mounting of the handle bar at the side panels with draft will hardly affect the load capacity and performance.

STANDARD COLOURS

Off-white, RAL 9002.
Middle section aluminium profile.

MATERIAL

Case of high-impact polystyrene (UL 94 HB).
Side arms and push button of reinforced polyamide.
Middle section aluminium profile.

SUPPLY

Case with handle bar.

(Part-No. with \neq see EMC page 128)

For full dimensions refer to pages 130 and 131 flat / high case combinations.
