

## 9.5 mm High Speed Cutter

Extended line of high quality versatile cutters made of high speed steel. Can be used for shaping, hollowing, grooving, slotting, inletting and making tapered holes in soft metals, plastics and woods. This one is specially designed for slots. Keep them carefully aligned as they can grab and suddenly jump out of their grooves. Use two hands to grip the tool.

**Part Nr:**  
2615019932

**EAN Code:**  
8710364007400

**Tips & Tricks:**

Cutting is done with the sides of the cutter: the point or tip of the cutter cuts poorly and shatters. It will break under too much pressure. Keep a light touch and use sharp, clean accessories. We advise to secure objects to a stable surface during work.

Please don't forget that :

- \* Metals require slower speeds than hardwoods,
- \* Plastics require very slow speeds because they tend to melt at the contact point,
- \* If chattering occurs, increase speed.

**Tools for this accessory:**

- [Multi Tools & Kits](#)
- [Cordless Multi Tools & Kits](#)
- [Multi Purpose Flex-Shaft Tools & Kits](#)

**Applicable collets:**

[480 585](#)

**Speed settings:**
