Weller[®]
Erem[®]

Side cutters and tip cutters

FOR CRITICAL APPLICATIONS

For further information please see:
<https://www.weller-tools.com/professional/USA/us/Home/Erem>

Built-in Weller-Erem Magic Spring

The Magic Spring system used in Weller-Erem precision tools is unique. It is integral to the cutting head and provides a constant closing and re-opening force.

It is highly reliable, makes the tools easy to use and reduces operator fatigue.

- Reduce costs thanks to long life
- Constant spring force
- Guarantees more than 1 million operations

High-precision screw joint

This self locking screw joint system gives a smooth cutting and opening action and ensures that there is no blade overlap or play.

- Smooth jaw action with no play
- Smooth cutting operation with no jaw overlapping

Induction-hardened cutting edges

The cutting blades of Weller-Erem cutters are hardened to Rockwell 63-65 HRC by an induction-heating process.

- High durability, thanks to special material selection

Special tool steel

Weller-Erem electronics tools are made from bright steel. The special tool steel is made using a unique Swiss processing technique.

- The bright tool steel gives additional strength and toughness to the tools to promote a long service life.

ESD-safe

The interchangeable foam-cushion handles are ESD-safe and are fitted as standard on all Weller-Erem cutters and pliers.

Weller-Erem cutting-edge protection for tip cutters

All tip cutters are fitted with a special stop system which prevents the cutting edges from overlapping.

CUTTERS

Model	Cut	Description	Key Applications	Dimensions				Dental/ Ortho	Cardio- vascular*	Typical Medical	Tungsten- Carbide Steel

Internal patented Weller-Erem Magic Spring

The Magic Spring system used in Weller-Erem precision tools is unique. It is integral to the cutting head and provides a constant closing and re-opening force. It is highly reliable, makes the tools easy to use and reduces operator fatigue.

- Reduce costs thanks to long life
- Constant spring force
- Guarantees more than 1 million operations

High-precision screw joint

This self-locking screw joint system gives a smooth cutting and opening action and ensures that there is no blade overlap or play.

- Smooth jaw action with no play
- No damaging of sensitive components

Precision-ground jaws

The very precisely worked tips get a firm and sure grip on even the thinnest of parts. The choice of high-quality materials and meticulous tempering are especially important during the manufacturing of these tweezers.

- Ground with the greatest precision

Special tool steel

Weller-Erem electronics tools are made from bright steel. They are not drop forged. The special tool steel is made using a unique Swiss processing technique.

- The bright tool steel gives additional strength and toughness to the tools to promote a long service life.

ESD-safe

The interchangeable foam-cushion handles are ESD-safe and are fitted as standard on all Weller-Erem cutters and pliers.

Ergonomically shaped handles

- For high comfort, better grip and added safety

Weller-Erem - Maximum Opening Stop

- Limits the cutting-edge tips from opening more than 5 mm/197 Inch. The limited extent to which the handles can open prevents user hand fatigue.

WIDE VARIETY OF HEAD SHAPES

COMFORTABLE AND FATIGUE-FREE WORKING.

TWEEZERS

Model		Shape	Description	Key Applications	Length	Weight	Dental/ Ortho	Various Medical	Material	Head Size
2ASARU		Straight/ Round	<ul style="list-style-type: none"> Precision tweezers with flat rounded tips for gripping components Coated tips for non-stick holding of self-adhesive parts Titanium stainless steel, nonmagnetic, non-rusting, acid-proof, heat-resistant 	For handling sticky adhesive labels and ribbons.	4.724 in	0.53 oz		✓	SS w/ Teflon Coated Tips	N/A
					120 mm	16 g				
5FSA, 5MBS		Straight Pointed	<ul style="list-style-type: none"> Precision tweezers with extremely pointed tips for use in dissection procedures and working under a microscope Relieved shape facilitates excellent access to the most confined spaces Stainless steel, robust tips, non-rusting, non-reflecting surface 	For use on soft materials.	4.528 in	0.42 oz		✓	Stainless Steel	
					115 mm	12 g				
15AGS		Narrow Oblique Head	<ul style="list-style-type: none"> Cutting tweezers with narrow oblique head Hardened cutting edges for long service life Suitable for cutting fine, soft wires and small components 	Designed for cutting fine soft wires up to dia. 0.25 mm/.010 in. and small components.	4.528 in	0.74 oz		✓	Carbon Steel	.216 narrowed to a pt
					115 mm	21 g				
29Y Series			<ul style="list-style-type: none"> Non-reflecting surface 	Suitable for stripping fine wires with PVC or Teflon® insulation.	4.724 in	0.78 oz		✓	Stainless & Carbon	
					120 mm	22 g				
940AS		Ring-Shaped	<ul style="list-style-type: none"> Gripping tweezers with locking mechanism The ring-shaped tip provides for secure handling up to a tensile force of 5 kg Suitable as a ligature clamp in dentistry Can be disinfected and sterilized Gripping tweezers enable the user to hold and manipulate particularly fine wires with a diameter from 0.3 mm/.011 Inch or insulated optical fibres with a diameter of between 1.5 mm/.059 Inch and 5 mm/.197 Inch 		4.724 in	0.60 oz	✓	✓	Stainless Steel	
					120 mm	17 g				
7SA		Curved	<ul style="list-style-type: none"> Precision tweezers, curved, relieved, with pointed tips Bent shape facilitates access to confined spaces Special stainless steel, nonmagnetic, non-rusting, acid-proof, heat-resistant 	For applications in biology, medicine, laboratory technology and microelectronics	4.724 in	0.53 oz		✓	Stainless	Very Fine
					120 mm	15 g				
5SA		Straight	<ul style="list-style-type: none"> Precision tweezers with very pointed tips, suitable for very fine wires Relieved shape facilitates excellent access to the most confined spaces Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant For precision work e.g. under a microscope 	Micro electronics	4.528 in	0.42 oz		✓	Stainless Antiacid	Very Fine
					115 mm	12 g				
258SA		Straight	<ul style="list-style-type: none"> Precision tweezers with pointed synthetic tips (PPS) and serrated finger grips for secure handling Relieved shape facilitates excellent access to the most confined spaces Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant For precision work e.g. under a microscope 	Secure handling of components up to 480F and resistant to acid and molten solder - water resistant.	4.724 in	0.53 oz		✓	Stainless Anti-acid w/ pointed synthetic tips	Fine Point
					120 mm	15 g

TWEEZERS

Model		Shape	Description	Key Applications	Length	Weight	Dental/ Ortho	Various Medical	Material	Head Size
249SA		Straight	<ul style="list-style-type: none"> Precision tweezers with pointed synthetic tips (PPS) and serrated finger grips for secure handling Non-reflecting surface Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	Microelectronics, medicine and laboratory technology. Secure handling of components up to 480F and resistant to acid and molten solder - water resistant.	5.118 in	0.71 oz		✓	Anti-Magnetic	Blunt
					130 mm	20 g				
M5S		Straight	<ul style="list-style-type: none"> Micro-tweezers, very pointed tips, e.g. for precision work under a microscope Suitable for delicate standard applications and precision work on small components or wires Stainless steel, robust tips, non-rusting, non-reflecting surface 	Microelectronics, medicine and laboratory technology. For precision electronic application work under a microscope	3.150 in	0.21 oz		✓	Stainless Steel	Very Fine
					80 mm	6 g				
3CSA		Straight	<ul style="list-style-type: none"> Precision tweezers, standard model for delicate work Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories	4.331 in	0.39 oz		✓	Anti-Magnetic	
					110 mm	11 g				
1SA		Straight	<ul style="list-style-type: none"> Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories	4.724 in	0.49 oz		✓	Stainless Steel	Fine Point
					120 mm	14 g				
2ASA		Straight	<ul style="list-style-type: none"> Precision tweezers with flat rounded tips for gripping components. Special stainless steel, nonmagnetic, non-rusting, acid-proof, heat-resistant Suitable for all standard gripping applications and assembly jobs on printed-circuit boards 	General purpose use in microelectronics, medical and laboratories	4.724 in	0.53 oz		✓	Stainless Steel	Flat Round
					120 mm	15 g				
3CSA		Straight	<ul style="list-style-type: none"> Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories and delicate work.	4.331 in	0.39 oz		✓	Stainless Steel	Fine Point
					110 mm	11 g				
3SA		Straight	<ul style="list-style-type: none"> Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories	4.724 in	0.49 oz		✓	Stainless Steel	Fine Point
					120 mm	14 g				
5SA		Straight	<ul style="list-style-type: none"> Precision tweezers with very pointed tips, suitable for very fine wires. Relieved shape facilitates excellent access to the most confined spaces Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant For precision work e.g. under a microscope 	For precision application work under a microscope	4.528 in	0.42 oz		✓	Stainless Steel	Fine Point
					115 mm	12 g

TWEEZERS

Model		Shape	Description	Key Applications	Length	Weight	Dental/ Ortho	Various Medical	Material	Head Size
5ASA		Bent	<ul style="list-style-type: none"> Precision tweezers, lightly curved 15°, relieved. Very pointed tips, e.g. for installing small components Bent shape facilitates access to confined spaces Special stainless steel, nonmagnetic, non-rusting, acid-proof, heat-resistant 	For applications in biology, medicine, laboratory technology and microelectronics	4.528 in	0.42 oz		✓	Stainless Steel	Fine Point
					115 mm	12 g				
7SA		Bent	<ul style="list-style-type: none"> Precision tweezers, curved, relieved, with pointed tips. Excellent handling in confined spaces Bent shape facilitates access to confined spaces Special stainless steel, nonmagnetic, non-rusting, acid-proof, heat-resistant 	For applications in biology, medicine, laboratory technology and microelectronics	4.724 in	0.53 oz		✓	Stainless Steel	Fine Point
					120 mm	15 g				
AASA		Straight	<ul style="list-style-type: none"> Suitable for delicate standard applications and precision work on small components or wires Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories	4.921 in	0.56 oz		✓	Stainless Steel	Fine Point
					125 mm	16 g				
OOSA		Straight	<ul style="list-style-type: none"> Precision tweezers with pointed tips. Very robust. Suitable for standard applications, e.g. for assembly in electronics Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	General purpose use in microelectronics, medical and laboratories Suitable for delicate standard applications and precision work on small components or wires	4.724 in	0.71 oz		✓	Stainless Steel	Fine Point
					120 mm	20 g				
OODSA		Straight	<ul style="list-style-type: none"> Model same as OOSA, but with serrated finger grips and inside-serrated tips for secure handling 	General purpose use in microelectronics, medical and laboratories Suitable for delicate standard applications and precision work on small components or wires	4.724 in	0.71 oz		✓	Stainless Steel	Fine Point
					120 mm	20 g				
15AGW		Cutting	<ul style="list-style-type: none"> Cutting tweezers with narrow oblique head. For soft wires up to dia. 0.25 mm/0.010 Inch. Delivers high-precision cuts Hardened cutting edges for long service life 	Suitable for cutting fine, soft wires and small components	4.528 in	0.92 oz		✓	Carbon Steel	Narrow Oblique
					115 mm	26 g				
4ASA		Straight	<ul style="list-style-type: none"> Relieved shape facilitates excellent access to the most confined spaces Special stainless steel, non-magnetic, non-rusting, acid-proof, heat-resistant 	For precision application work under a microscope	4.331 in	0.45 oz		✓	Stainless Steel	Very Fine
					110 mm	13 g
