DESCRIPTION

You're using, learning or sharing one of the best operating systems in the world, BSD! Adafruit offers a fun and exciting "badges" of achievement for electronics, science and engineering. We believe everyone should be able to be rewarded for learning a useful skill, a badge is just one of the many ways to show and share.

This is the BSD Daemon skill badge is for use with [educators](#), classrooms, workshops, [Maker Faires](#), [TechShops](#), [Hackerspaces](#), [Makerspaces](#) and around the world to reward beginners on their skill building journey!

This beautiful badge is made in the USA.

The badge is skillfully designed and sturdily made to last a life time, the backing is iron-on but the badge can also be sewn on.

The BSD daemon, nicknamed Beastie, is the generic mascot of BSD operating systems. The BSD daemon is named after a software daemon, a computer program found on Unix-like operating systems, which through a play on words takes the cartoon shape of a mythical demon. The BSD daemon's nickname Beastie is a slurred phonetic pronunciation of BSD. Beastie customarily carries a trident to symbolize a software daemon's forking of processes. The FreeBSD web site has noted Evi Nemeth's 1988 remarks about cultural-historical daemons in the Unix System Administration Handbook: "The ancient Greeks' concept of a 'personal daemon' was similar to the modern concept of a 'guardian angel' ...As a rule, UNIX systems seem to be infested with both daemons and demons - [Wikipedia](#)

The copyright of the official BSD daemon images is held by Marshall Kirk McKusick the [BSD Daemon used with permission](#). Adafruit has permission directly from Kirk to make this wonderful badge!

Adafruit's embroidered badges are manufactured in partnership with [AMBRO Manufacturing](#)

open-source with Adafruit Industries. You can meet their team [here](#). AMBRO uses non-toxic soy based, water soluble and environmentally friendly printing supplies, threads and more when possible. AMBRO has over 250 solar panels that generate 50,000 Kilowatt hours per year. Their equipment runs solar powered, so the wonderful things AMBRO and Adafruit have worked together on are made with the sun! AMBRO Manufacturing was [recognized](#) by Impressions Magazine, a leading trade publication in the garment printing and embroidery business, who published an article highlighting AMBRO and their commitment to their environmentally focused manufacturing practices. Adafruit knows you have a lot of choices as to where you spend your money and time, we hope our open-source values, commitment to green technologies and partners helps make the decision easier and fun!
