1-79-213

### Features:

- Long lasting and hard wearing 600 denier nylon
- Durable polypropylene frame ideal for heavy tools
- Covered external pockets
- Moveable aluminium handle folds down for easy access
- Polypropylene base protects against damp & wet site conditions

### Description:

The STANLEY FATMAX® Plastic Fabric 20" Tote with cover is made from heavy duty 600 denier fabric for added durability. It features a rigid polypropylene frame and base with full cover which protects against dirt and damp. The moveable aluminium handle easily folds down for quick access. The covered external pockets can be used for tools that need to be quickly accessed.
