

# 180 Rotating Wall Unit

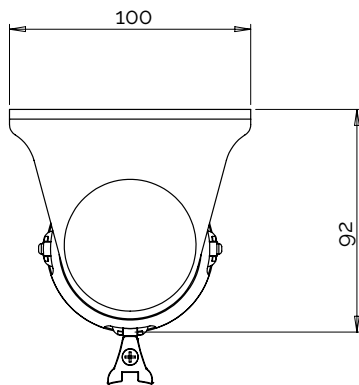

A unique wall unit that rotates 180 degrees to cordon off any area at a variety of angles.

## Features & Benefits

- Incorporating all the benefits of a standard TensabARRIER® wall unit with the added benefit of a rotating cassette holder.
- Saves on multiple units as only one unit is needed to cordon off areas at different angles within 180 degrees of the fixing.

- The casing incorporates pivots, as the webbing is pulled out the unit dynamically changes to the required direction within the 180 degree angle.
- Areas can be cordoned off without taking up valuable floor space.
- Quick and simple to install.

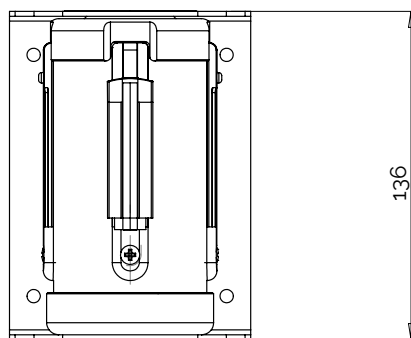

## Product Specification

- 180 degree rotating unit.
- Available as standard with a powder coated black casing and yellow rotating head unit.
- Standard Tensator® anti-tamper tape-end provided.
- Provided with an 898 wall receiver, which is screw mounted to the opposite wall or surface – additional clips are available to purchase.
- Comes as standard with webbing connectivity – so other TensabARRIER® products can be connected to the side of the rotating head unit if required.

## Product Configuration

- Available with 2.3m or 3.65m of coloured, chevron or standard safety message webbing.
- Custom printed webbing options available.
- Optional tape ends available – magnetic, wire clip, panic break.
- Compatible with Tensator's glass and magnetic mounting options – making installation on any surface possible.
