

STANLEY

STANLEY 3 in 1 Saw

0-20-092

Features:

- Multi-Purpose 3 in 1 Saw Set offers multiple blades in one space saving design, universal pull saw blade, metal saw blade and compass saw blade
- Anti-slip ergonomic bi-material handle for optimum user comfort
- The turn knob allows blades to be easily changed and they can be tilted into 6 different positions
- The main blade utilises a pull saw tooth configuration which is less likely to jam or bend while in use

Description:

The STANLEY 3 in 1 saw is an incredibly versatile multi-purpose tool that provides an all in one space saving solution. The innovative tool allows all blades to be adjusted in 6 various positions depending on the cutting application required simply by adjusting the knob. The bi-material handle provides an ergonomic feel that gives optimum user comfort. The 10" pull saw blade with 11tpi has aggressive teeth that are perfect for general woodwork and pruning. The 8" compass saw blade with 9 tpi has been designed for more finely detailed work. The 6" metal hacksaw blade with 24 tpi is ideal for cutting metal pipes and rods.
